Universal Tire Inflation Cages

Technical Features | IC-XX

Parameter*	Model No: IC-12	Model No: IC-18
Weight	1420 kg	1740 kg
Nominal Dimensions	Height	1827 mm
	Length	2053 mm
	Width**	1382 mm
Footprint	2,9 m ²	3,5 m ²
Door Rotation Radius	1262 mm	1502 mm
Input Pressure	Up to 240 Bars (3500 Psi)	Up to 240 Bars (3500 Psi)
Auto Shot-off Function	Available (Standard)	Available (Standard)
Auto Shot-off Pressure (Adjustable)	0 to 35 Bar (500 Psi)	1 to 35 Bar (500 Psi)
Ballistic Observation Glass***	Available (Standard)	Available (Standard)
Observation Glass Ballistic Standard	EN-1063 Br6 NS	EN-1063 Br6 NS
User Interface	Analogue / Digital (Optional)	Analogue / Digital (Optional)
Inside LED Illumination	Available (Standard)	Available (Standard)
Front Door Aluminum Handling Ramp	Available (Standard)	Available (Standard)
Color	Customizable by the Customer	Customizable by the Customer

* All parameters given are customizable upon customer's request

** Pneumatic box excluded, location of the box is up to the customer's request

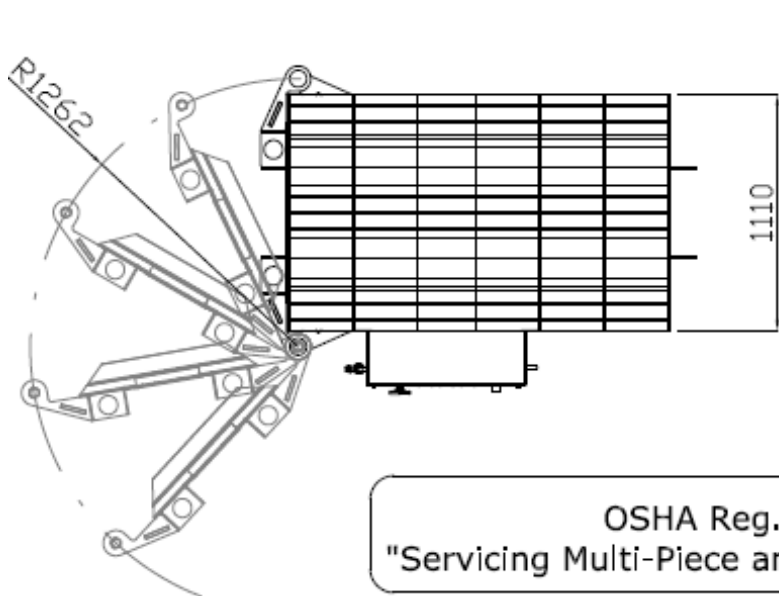

*** Total two per cage in standard product, one on the front door, the other is any side wall. Locations and quantities are customizable by the Customer

Universal Tire Inflation Cages

Main Dimensions | IC-12

OSHA Reg. No: 1910.177
"Servicing Multi-Piece and Single-Piece Rim Wheels"

Universal Tire Inflation Cages

"As a NATO supplier engineering company, we design and manufacture a wide variety of aircraft maintenance, painting and assembly lines, special ground support equipment and mechanical systems for both civil and defense industries. Our complete scope of project implementation covers design, analysis, manufacturing, testing, documentation, shipment, commissioning and aftersales support. This becomes ENMARES' distinguishing power in many prestigious aviation and defense projects for years."
