

ENMARES Aviation Marine and Land Defense Incorporate

Portable

HYDRAULIC PRESSURE CARTS

Product Model Series: ENM-HSC-20.1

Portable Hydraulic Pressure Cart

| Product Features | |
|--|--|
| Product Type | Portable Hydraulic Pressure Cart |
| Product Model Code | ENM-HSC-20.1 |
| Main Chassis and Reservoir Material | Stainless Steel |
| Fasteners | A4 Grade Stainless Steel |
| Surface Finish | Marine Quality Electrostatic Paint |
| Maximum Pressure Supply | 5000 psi / 340 bar |
| Valve Set | 2-Way Pressure Counterbalance Valve and 3-Way Output Selection Valve |
| Reservoir Volume | 30 lt |
| Tire Type and Diameter | Semi-Pneumatic Rubber Tires / \varnothing 200 mm |
| Filtration | 3 μ / Integrated High Pressure Filter |
| NAS 1638 Filtration Class | 3 |
| Number of Outputs | Single / Dual (Optional) |
| Certification | CE |

Portable Hydraulic Pressure Cart

Main Dimensions*

* Model No: ENM-HSC-20.1-A

Portable Hydraulic Pressure Cart

"As a NATO supplier engineering company, we design and manufacture a wide variety of aircraft maintenance, painting and assembly lines, special ground support equipment and mechanical systems for both civil and defense industries. Our complete scope of project implementation covers design, analysis, manufacturing, testing, documentation, shipment, commissioning and aftersales support. This becomes ENMARES' distinguishing power in many prestigious aviation and defense projects for years."

Rotary and Fixed Wing Aircraft Towing Vehicles
Helicopter Operation Equipment
Aircraft Assembly Line Solutions
Special Aircraft Docking Systems
Aircraft Painting Docking Systems
Aircraft Tire Inflation Cages
Aircraft Engine Components Clean Lines
On-the-vessel Helicopter Platforms
Special Electromechanic Weapon Systems
Composite Ballistic Armouring
Mobile Diesel Fire Extinguishing Pumps

ENMARES Aviation and Defense Company
NATO CAGE: TA642
